ACTIVITY REPORT

Name of the Department: Electronics		Academic Year 2025-26	
		Date: 13/02/2025	
Name of the activity	B.Sc. II & B.Sc.III Study Tour		
Purpose of Program	To help students learn recent development-oriented skills & gain knowledge about Rayat Radio Station, Centre for Invention and Incubation & Lighthouse.		
No. of Students Participated	13		
No. of Teachers Participated	02		
Program outcomes	Students understand the basics of communication systems. They learn how sound converted into signals and transmitted & improves knowledge about broadcasting. In Innovation & Incubation they learn new ideas are converted into products. Student observe structure & mechanical arrangement of lighthouse, learn about coastal safety & marine communication.

Study Tour Report

The Department of Electronics, Yashwantrao Chavan College of Science, Karad organized an educational tour and Industrial visit at Rayat Radio Station Satara, Yaswantrao Chavan center for Invention, Innovation and Incubation Satara & Tolkeswar Lighthouse Anjanwel on February 13 and 14.

As planned, we started our travel at 8:00 a.m. and gathered to college by 7:30 a.m. The trip took the following route: Karad, Satara, Mahabaleshwar, Dapoli, Anjanvel and Karad. At 9:30 a.m. we visit Rayat Radio Station, Yashwantrao Chavan center for Invention, Innovation and Incubation, Satara. Recent trends in Electronics where students learn various science subjects. Rayatvani is a community radio station that broadcasts programs including education, information and local content. Students can learn about radio broadcasting and communication.

Yashwantrao Chavan center for Invention, Innovation and Incubation Satara. is part of Rayat Shikshan Santha's main goal is to help students and innovates develop new ideas and stat new businesses is modern center where students learn to think creatively, invent new products and start their own businesses. It has special labs and tools like 3D printers, design software, robotics equipment and advanced manufacturing machines to build of ideas. It provides mentorship, workshops, networking and support for young entrepreneurs who want to build startup.

On the Second day February 14,2026 of our study tour, we reached to visit Tolkeswar

lighthouse. The lighthouse is located near the Arbian Sea on a small hill. When we reached there, we saw the tall lighthouse tower standing near the seashore. The lighthouse works as a safety guide for ships and boats in the sea. At the top of lighthouse there is powerful light. The light rotates continuously and can be seen from long distance, especially at night. Each lighthouse has special pattern. Because of this pattern, sailors can identify which lighthouse they are seeing and understand their location. During bad weather like heavy rain fog and storm, this light becomes very important. It helps to prevent accidents and keeps ship safe. The lighthouse uses a Radar system for extra safety. Radar that helps to detect ships in the sea. Radar & GPS are installed at the lighthouse band radar on the seashore are used by the marine to track the moments of enemy and other ships. At 6:30 p.m. we set our return trip, which took us via Shrugaltali, Chiplun and Karad. We arrived home safely at last.

Feedback form

Name of the Activity – Industrial Visit at Rayat Radio Station Satara, Centre for Invention and Incubation Satara, Tolleshwar Lighthouse Anjanwel

Name of Student: Vishwajeet Shankar Murlik

Class: BSC-IT

Roll No: 2050

		Excellent (5)	Very Good (4)	Good (3)	Satisfactory (2)	Poor (1)
1	The visit is Electronics developmental technology oriented	✓				
2	The field was well organized and timely	✓				
3	The visit was useful to strengthen knowledge gathered in lectures	✓				
4	The Director/Resource Person discussed subject matter during the visit	✓				
5	Overall departmental co-operation & management.	✓				

Any Other suggestion if any

NO

Date: 17-2-2026
