About College

Shri Shivaji Education Society, Karad's Board for Higher Education, founded by Late Hon. Shri. Yashwantrao Chavan, former Deputy Prime Minister of India, established this college in June 1959 as Science College Karad with an objective of providing education in science to students of the Karad and surrounding area in Maharashtra. To keep his memory alive, the college was renamed after him in 1986. The college building inaugurated in 1960 by the then President of India, Hon. Dr. Rajendra Prasad is located in a sprawling campus of around 90 acres and has flourished under the able stewardship of Late Hon. Shri. P. D. Patilraheb. Today Yashwantrao Chavan College of Science, Karad is one of the premier educational institutions in this region.

This college is a grant-in-aid institution, affiliated to Shivaji University, Kolhapur. It is included under sections 2(f) and 12(B) of the UGC Act. Our College is also an ISO 9001:2015 certified College and is now accredited to B+ level by NAAC in 2017 in 3rd cycle. The college offers courses in Physics, Microbiology, Geology, Statistics, Chemistry, Pollution, Botany, Zoology, Mathematics and Electronics at the graduation (B.Sc.) level. The college has facility of postgraduate courses leading to M. Sc., in Microbiology since 32 years, and Analytical Chemistry since 2013. College has recognized research laboratories for Ph. D. in Microbiology since 1979, Zoology since 2013 and Botany since 2016. M. Phil courses in Botany and Zoology are also being offered in this college. Since the academic year 2008-09, three new courses, B.Sc. in Biotechnology, B.Sc. in Computer Science, B.Sc. in Computer Science (Entire) have been started at graduation level. The college has also received several grants for major and minor research projects and for infrastructural facilities from funding agencies like UGC, CPCB and DST-SERB.

To achieve academic excellence, the college has schemes such as Remedial teaching for weak students. Consequently, our meritorious students have consistently occupied top places in Board and University Merit lists. For the academic year 2017-18, College is recipient of award of maximum no. of merit scholarships in urban areas as well as in science stream by Shivaji University, Kolhapur.

About Department

Our Microbiology department was established in 1976 as the first department in Shivaji University, Kolhapur to teach the sunrise subject of Microbiology at undergraduate level for the B.Sc. Honours degree and is one of the major departments in the college.

Its postgraduate section was started in 1979, again as the first in the University and till today remains the only department offering M. Sc. Microbiology course in the Science Faculty of Shivaji University, Kolhapur on grant-in-aid basis. The current capacity for this course is 48 seats, of which one batch of 24 is run on the grant-in-aid basis and the other on a non-grant basis. In 1981, the laboratory was recognized for PhD research by Shivaji University, Kolhapur and totally 10 students have completed Doctorate degrees from this department. At present, 05 students are pursuing their Ph.D. degree from our department.

Preamble

During December 27, 2019, Department of Microbiology, Yashwantrao Chavan College of Science, Karad is organizing a **One Day National Level Workshop on Intellectual Property Rights** with the aim to enlighten the undergraduate and post graduate students of Science and Technology to uplift the research in their concerned subjects.

About the Workshop

Realizing the immense potential of Life Sciences Research in India, many Universities and Research laboratories have started to strengthen their research capabilities on this emerging field. Very few researchers have thorough knowledge about Intellectual Property Rights and its applications during filing patents of their own novel research work.

This One Day National level Workshop will help the budding scientists regarding basics concepts of Intellectual Property Rights.

Eligibility

Undergraduate and Post graduate students, Ph.D. Students, Research Scholars and Faculties of Science and Technology are eligible to participate in this workshop.

THE 1ST NATIONAL CONFERENCE ON

Advances in Chemical Sciences

NCACS 2020

Yashwantrao Chavan College of Science, Karad

08 January 2020

CONFERENCE

SUMMARY

REPORT

ABOUT NCACS-2020

The 1st National Conference on Advances in Chemical Sciences (NCACS-2020) has successfully concluded in Yashwantrao Chavan College of Science, Karad, Maharashtra, India.

The NCACS-2020 was organized by Department of Chemistry & Internal Quality Analysis Cell (IQAC) of Yashwantrao Chavan College of Science, Karad, Maharashtra, India.

NCACS-2020 is a forum to bring together researchers, scientists, business people and industry professionals and students to discuss innovative ideas and diverse topics on advances in chemical sciences. NCACS was joined by hundreds of participants from about 35 colleges from Maharashtra.

NCACS-2020 has become the most widescale, extensive, spectacular event in history of conferences organized and hosted by Yashwantrao Chavan College of Science, Karad for its high level and largest number of participation.

Hundreds of attendees, paper presenters, keynote and tutorial speakers and students benefited in many ways from this conference. More than 75 scientific papers were presented by authors from 35 colleges. Four Invited, Keynote and Tutorial Speakers from different research institutes addressed to audience and shared knowledge and rich experience of advances in chemical sciences in their institutes.

CONFERENCE SCOPE

NCACS-2020 topics include, but are not limited to, the following research and developments areas/ fields:

Green Chemistry

Nanotechnology

Analytical Techniques

Material Chemistry

Organic and Polymer Chemistry

Material Science

Catalysis

Industrial Chemistry

Computational Chemistry

Pharmaceutical Chemistry

As a result many Keynote, Tutorial and Technical Sessions have been prepared in accordance with conference scope to discuss the Challenges, Opportunities and Problems of Advances of Chemical Sciences in various fields.

WELCOMING AND OPENING CEREMONY

The day of conference started with Welcoming and Opening Ceremony at Auditorium Hall of Yashwantrao Chavan College of Science, Karad. The following representatives of Shri Shivaji Shikshan Sanstha Trust, National Chemical Laboratory, Yashwantrao Chavan College of Science and supporting committees addressed to participants with short welcoming speeches.

Prof. P. P. Wadagaonkar,
Senior scientist, National Chemical Laboratory, Pune.

Hon. Shri. Altafhussen Mulla,
Member, Shri Shivaji Shikshan Sanstha, Karad.

Prin. Dr. S.B.Kengar,
Principal, Yashwantrao Chavan College of Science, Karad.

Dr. S.H.Burungale,
Convener and Head Department of Chemistry, Yashwantrao Chavan College of Science, Karad.

KEYNOTE AND TUTORIAL SPEECHES

CHEMISTRY IN THE SERVICE OF HUMANITY

Prof. Purushottam P. wadgaonkar

Emeritous Scientist, National Chemical Laboratory, Pune

During the approximately two centuries that chemical science has been practiced on an ever-increasing scale, it has enabled the production of a wide variety of goods that are valued by humans. These include such things as pharmaceuticals that have improved health and extended life, fertilizers that have greatly increased food productivity, and semiconductors that have made possible computers and other electronic devices. Without the persistent efforts of chemists and the enormous productivity of the chemical industry, nothing approaching the high standard of living enjoyed in modern industrialized societies would be possible.

This presentation will highlight the role of chemistry in human lives. The issue of how to unlock the true potential of Chemistry in India will also be discussed

Energy Intensified Physico-Chemical Transformation

Prof. Dipak Vitthal Pinjari (Fulbright Scholar)
National Center for Nanoscience and Nanotechnology,
University of Mumbai

Cavitation is one of emerging technology with an immense potential in a variety of fields such as physical and chemical processing, textile industry, food industry, industrial wastewater treatment, petroleum industry etc. Cavitation based processes promise an energy efficient alternative to the conventional multiphase reactors, for example a simple mechanically agitated contactor. It can generate very high local temperatures and pressures; cavitation can achieve the twin objectives of increasing the rate of the local transport processes and enhancing the intrinsic rate of the chemical reaction at much lower overall energy inputs. Cavitation is the phenomenon of sequential formation, growth and collapse of millions of microscopic vapor bubbles (voids) in the liquid. The collapse or implosion of these cavities creates high localized temperatures roughly of about 10000 K and a pressure of about 1000 atm. and results into short-lived, localized hot-spot in cold liquid. Thus, cavitation serves as a means of concentrating the diffused energy in the fluid. The extreme transient conditions thus generated in the vicinity and within the collapsing cavitation bubbles open up many unique target points to direct the process and thus it becomes a new and novel way to drive physical, chemical and biological transformations.

Synthesis of metal/metal oxide colloidal nanoparticles using ultrasound assisted method and fabrication of higher size particles to lower size using hydrodynamic cavitation will be explored. Other topics including Wastewater Mineralization, Concentrated Solar Radiation (CSR) for chemical synthesis, Nanocontainer development for specific applications will also be explored.

CONCURRENT TECHNICAL SESSIONS

Thermoresponsive polymer-grafted magnetic mesoporous silica nanoparticles as smart pharmaceutical nanocarriers

Sushilkumar A. Jadhav

School of Nanoscience & Technology, Shivaji University, Kolhapur.

This work deals with synthesis and testing of thermoresponsive polymer grafted magnetic mesoporous silica nanoparticles as smart pharmaceutical nanocarriers. The magnetic iron oxide nanoparticles were synthesized and coated with mesoporous silica shell followed by grafting with thermoresponsive copolymer of poly(*N*-isopropylacrylamide) (PNIPAM). The hybrid nanoparticles were fully characterized with various instrumental techniques. A model drug (ibuprofen) was used to test the thermosensitive drug delivery efficiency of the polymer-grafted nanoparticles. The *in vitro* drug release tests were carried out at below (25°C) and above (40°C) the lower critical solution temperature (LCST) of the thermoresponsive copolymer. The drug release profiles at 25 and 40 °C showed large difference in quantities of the drug released at these two temperatures. This proved that the drug release can be triggered at temperatures above the LCST of the polymer. These results clearly indicated that the thermoresponsive polymer grafted on the porous silica act as a gatekeeper through its typical *coil to globule* transition for the thermally triggered release of the drug. Thus, the hybrid thermoresponsive polymer coated magnetic mesoporous silica nanoparticles are promising smart nanocarriers for controlled and targeted delivery of therapeutic substances.

Bridging boundaries with catalysis

Dr. Dinesh Nanaji Sawant

Senior Scientist, National Chemical Laboratory, Pune.

Through the past several decades, advancement in the field of transition metal catalysis has provided numerous efficient methods for the synthesis of complex organic molecules. In this context, we have developed catalytic methods for synthesis of amides, nitriles and various heterocycles by C-H activation of amides. Besides, we have successfully applied heterogeneous organometallic catalysts for utilization of carbon monoxide (CO) into valuable chemicals such as amides and heterocycles. We also address the essential aspects of cross-coupling reactions such as the development of heterogeneous catalysts for hydroamination reactions and homogenous recyclable catalyst for Heck coupling reactions. We further explored the synthesis and application of a new class of Bedford type of palladium catalyst for application in aqueous cross-coupling reactions. Our recent effort was focused on the development of organocatalyst for peptide synthesis. With overall experience in Homogenous catalysis, Heterogeneous catalysis, Nanocatalysis and Organocatalysis, we extended our expertise for biocatalysis by the development of artificial metalloenzymes or bioorganometallics. The research aimed to advance the biochemistry field by developing new biocatalysts via incorporation of Unnatural Amino Acids with the ability to coordinate metals into protein framework to introduce catalytically active transition metal complexes. Therefore, the protein becomes highly enantioselective with the advantages of organometallic catalysts and enzymes. In our studies, artificial metalloenzymes have been successfully applied for asymmetric reactions such as Tsuji-Trost reaction and Diels alder reaction. Overall, we have accomplished interdisciplinary work, and further studies are in progress for bridging boundaries with catalysis for development of green methods for organic reactions.

Poster Presentation

Hundreds of attendees, paper presenters, keynote speakers, tutorial participants and students have benefited in many ways from this conference. More than 50 scientific papers were presented by authors from 35 colleges in technical session that were held in L.H.3 at Yashwantrao Chavan College of Science, Karad. Two team of experts visit poster presentation session and evaluate. Among all presented papers 5 papers were selected as best posters and honoured with certificate.

CLOSING CEREMONY

NCACS-2020 closing ceremony was held in Auditorium Hall at Yashwantrao Chavan College of Science, Karad.

(Abridged version of a closing address by Convener)

Ladies and gentlemen,

The 1st National Conference on Advances in Chemical Sciences NCACS-2020 is now drawing to close. I would like to take this opportunity to extend our sincere gratitude and appreciation to all of you, for your invaluable contributions in making this event a great success.

We hope that today's conference has been fruitful and that you will be able to make the most from the sessions you attended. Through a wide range of keynote speeches, tutorials and discussions, we have been presented with new ways to deal with some of the challenges in Advances in Chemical Sciences. We hope that you shared your experiences and expertise with other participants from near and far, and that a cordial relationship was established among us during the NCACS-2020.

But, of course, the real measure of this conference's success lies in how it will affect you—our participants, or more precisely, how it will affect the actions you will take after you leave Karad (conference). We look forward to further building relationships with you and your organizations. I hope that all of us will continue what we have started here today.

Before I conclude, I would like to announce that we are going to organize an international conference in the subject of Chemical Sciences for the next year. The dates will be announced later and informed to all of you.

Thank you for being here in Karad with us and have a safe journey home.

Dr.S.H.Burungale,
Convener,
NCACS-2020

ACKNOWLEDGEMENTS

Assistant Professor G.B.Dhake expressed deep gratitude on behalf of Organizing and Steering committees. Special thanks were extended to the staff of the Chemistry Department of college which worked all together and extremely hard to prepare an outstanding conference. Tender thanks were expressed to chief guests, speakers, participants who increases splendour of conference. Finally the special thanks were expressed to students of Chemistry Department, who did impressive and dedicated work.

विषय :- वनस्पतीशास्त्र विभाग आयोजित "फ्रुट प्रोसेसिंग" या विषयावरती एक दिवसीय
कार्यशाळा ...

महोदय,

आमच्या महाविद्यालयाच्या वनस्पतीशास्त्र विभागाच्या वतीने विद्यार्थ्यांच्यासाठी "फ्रुट प्रोसेसिंग" या विषयावरती एक दिवसीय कार्यशाळा आयोजित केली होती. या कार्यशाळेमध्ये आपण विद्यार्थ्यांना फ्रुट प्रोसेसिंग वददल वेगवेगळे खादयपदार्थ तयार कसे करावयाचे व त्यासाठी घ्यावयाची काळजी या विषयी बहुमोल मार्गदर्शन केल्यावदल महाविद्यालय आपले आभारी आहे.

कळावे,

आपला विश्वासू,

प्रचार्य

**Report of the Activity
Guest Lecture on “Applications of Statistics”**

The inaugural function of “Applications of Statistics” was scheduled on 04th February 2020 started at 11:00 am by the Honorable President Principal (Dr.) S. B. Kengar, Yashwantrao Chavan College of Science, Karad and staff members. The function was organized by Department of computer science.

At the beginning of function, welcome speech on behalf of Department of computer science was given by Ms.N.R.Jagtap. The function was followed by felicitation of Presence Honorable Shri.S.R.Supnekar and President Principal (Dr.) S. B. Kengar, Yashwantrao Chavan College of Science, Karad

The Guest lecture on Applications of Statistics provided an illuminating exploration into the myriad applications of statistics, showcasing its pervasive presence in diverse fields. Statistics, often regarded as the science of data, plays a pivotal role in informing decisions, drawing meaningful insights, and solving complex problems across industries. This report encapsulates the key takeaways from the lecture, shedding light on the practical applications that harness the power of statistical methods.

Shri.S.R.Supnekar explains a comprehensive overview of the applications of statistics, emphasizing its role as a versatile tool in diverse domains. From shaping business strategies to informing healthcare decisions and unraveling patterns in data science, statistics is a powerful ally in the quest for knowledge and informed decision-making. While challenges exist, the evolving landscape of statistical applications continues to demonstrate its indispensable value across industries and disciplines.

**YASHWANTRAO CHAVAN COLLEGE OF
SCIENCE, KARAD
DEPARTMENT OF COMPUTER SCIENCE**

**Report of the Activity
Science Seminar on “Programming Languages”**

The inaugural function of “Foreign Languages” was scheduled on 17th February 2020 started at 03:30 pm by the Honorable President Principal Dr.S.B. Kengar, Yashwantrao Chavan College of Science, Karad and staff members. The function was organized by Department of computer science.

At the beginning of function, welcome speech on behalf of Department of computer science was given by Ms.S.S.Jadhav. The function was followed by felicitation of Presence Honorable Prof. M.A.Jadhav and President Principal (Dr.) S. B. Kengar, Yashwantrao Chavan College of Science, Karad

The Science Seminar on programming languages provided a well-rounded perspective on the world of programming. It left the audience with a deeper understanding of programming language fundamentals, their historical context, and the considerations when selecting a language for a project. The personal insights shared by Prof. M.A.Jadhav were a highlight of the lecture, providing a practical touch to the theoretical concepts.

The lecture served as a valuable learning experience for students, researchers, and professionals alike. It underscored the importance of staying informed about the ever-evolving landscape of programming languages in today's technology-driven world.

Overall, the lecture was a resounding success, and the host institution is grateful to Prof. M.A.Jadhav for sharing their expertise with our community.

Thank you very much for delivering an informative & through provoking lecture as Guest Speaker on "**Programming Languages**". Held on 17th February 2020 at 11:00 am at Yashwantrao Chavan College of Science, Karad in the Department of Computer Science.

It was really splendid presentation which exposed students to the field practices. All the student appreciated & got benefitted from your views on the subject.

Looking forward for your co-operation for the promotion of professional education in future as well as.

Thanking you,

Yours Sincerely,

Principal
